

# The Future of Weed Control

**Friday 26 May 2023 – Green Shed, 21 Ruahapia Rd, Waipatu, Hastings**

Given the calibre of people who will be with us for LandWISE 2023, we are running a special workshop the day after the Conference. It seems an ideal opportunity to let farmers, researchers and industry get together to workshop where we are, and where we should be putting effort.

## Topics

Horizons scan on what needs to be done.

- What are the problems? Farmer view-points
- What research have we been doing? Researcher updates
- What research we should be doing? General discussion
- What is the priority?
- What can/should be commercialised now?

## Agenda

<b>9:00</b>	Welcome		Dan
<b>9:10</b>	Who is here?	1 minute introductions	All
<b>9:25</b>	Background	What today is about	Dan
<b>9:30</b>	The problems and potentials as I see them	10 minute opinions	Growers
<b>10:00</b>	MORNING TEA		
<b>10:30</b>	The problems and potentials as I see them	10 minute opinions	Industry
<b>11:00</b>	The problems and potentials as I see them	10 minute opinions	Researchers
<b>11:30</b>	Discussion		All
<b>12:00</b>	LUNCH		
<b>1:00</b>	Reflections so far		All
<b>1:30</b>	What looks ripe for commercialisation now?		All
<b>2:00</b>	What needs more work?		All
<b>2:30</b>	What research should be prioritised?		All
<b>3:00</b>	AFTERNOON TEA		
<b>3:30</b>	General Discussion - collaborations		All

Cost: \$75
